

The Programme Where Africa Stops Waiting for the Future and Starts Producing It

SIRAGA Forum’s Business & Industrial Investment Programme is a strategic architecture of transformation. It connects States, industry, investors, ports, special economic zones, banks, technology firms, researchers and Africa’s productive forces into integrated value chains that convert resources, talent and innovation into competitive, sustainable and inclusive industrial production. It aligns policy, capital and capability to unlock scale, accelerate industrialization and deliver shared prosperity across the continent.

VISION

A sovereign, competitive and integrated Africa that produces what it consumes, trades what it makes, and leads in the industries of the future.

AMBITION

Build a new generation of industrial ecosystems that create jobs, strengthen resilience and position Africa as a global manufacturing and innovation hub.

CONVERGENCES

Align government priorities, industrial and investor interests, financial solutions, technology and research to de-risk and deliver at scale.

STRATEGIC SECTORS

Agro-industries, pharmaceuticals, critical minerals, energy & renewables, mobility, digital manufacturing, logistics & ports.

IMPACT

Industrial capacity, quality jobs, export growth, technology transfer, regional integration and sustainable prosperity.

INVEST TODAY. PRODUCE TOMORROW.

SIRAGA Forum — a catalyst for industrialization and shared prosperity.

HIGH-LEVEL ECONOMIC INTELLIGENCE

The Business & Industrial Investment Programme is a platform for strategic intelligence that brings together **real needs, industrial capacities, disruptive technologies, mobilizable financing** and **decision-making power** to design, structure and implement high-impact projects across Africa.

THE GREAT QUESTION OF THE AFRICAN CENTURY

The 21st century will not be the century of Africa if we remain a continent of extraction and consumption. It must be the **century of production, transformation and competitiveness**. Our challenge is clear: to build sovereign and integrated industrial systems capable of creating wealth, jobs and global influence.

“ Africa does not only need investment. It needs investment that produces sovereignty. ”

WHAT MAKES THIS PROGRAMME UNIQUE

It connects industry to **sovereignty**.

It connects investment to **competitiveness**.

It connects ports and industrial zones to **value chains**.

It connects breakthrough technologies to the **real economy**.

It connects capital to **transformative projects**.

LE PROGRAMME DES GRANDES CONVERGENCES

Le SIRAGA Forum crée un cadre où les priorités publiques, les capacités industrielles, les technologies stratégiques et les financements se rencontrent pour bâtir une nouvelle architecture de transformation productive.

1. Convergence entre États et investisseurs

Présenter les projets, les besoins, les zones de développement et les cadres d'accueil des investissements.

2. Convergence entre industrie et technologie

Intégrer drones, robotique, intelligence artificielle, géospatial, automatisation et plateformes de données dans les secteurs productifs.

3. Convergence entre ports, zones industrielles et chaînes de valeur

Connecter logistique, production, corridors commerciaux et plateformes industrielles.

4. Convergence entre innovation et financement

Réduire la distance entre idées, projets structurés et partenaires capables de les accompagner.

5. Convergence entre souveraineté et compétitivité

Construire une Afrique ouverte au monde, mais forte de ses propres capacités.

LES SECTEURS STRATÉGIQUES DU PROGRAMME

Industrie & transformation locale

Développer des capacités industrielles compétitives et durables.

Drones, robotique & systèmes autonomes

Automatiser, surveiller et optimiser les opérations à grande échelle.

Intelligence artificielle & données stratégiques

Exploiter la donnée pour décider, prédire et créer de la valeur.

Géospatial, cartographie & observation de la Terre

Cartographier, analyser et surveiller pour planifier et protéger.

Maritime, ports & économie bleue

Faire des océans et des ports des leviers de croissance et d'intégration.

Énergie, infrastructures critiques & résilience

Sécuriser l'énergie, les infrastructures et préparer l'avenir.

**INVESTIR AUJOURD'HUI,
PRODUIRE DEMAIN.**

A PLATFORM THAT SPEAKS TO ALL STAKEHOLDERS

The SIRAGA Forum is designed to unite all the forces that shape Africa's industrial future. From public authorities to investors, from global companies to research institutions, we provide a neutral, high-level space for alignment, collaboration and concrete action. Each stakeholder finds a clear role, strategic value and tangible outcomes.

- 

To States
Policy alignment, regional coordination and industrial sovereignty.
- 

To Investors
Bankable opportunities, risk clarity and long-term returns.
- 

To Industrial Leaders
Market access, partnerships and scale across Africa.
- 

To Technology Companies
Deployment opportunities, innovation partnerships and impact at scale.
- 

To Banks and Development Finance Institutions
Viable projects, blended finance and measurable development impact.
- 

To Startups and Innovators
Visibility, connections, funding pathways and industrial launchpads.
- 

To Researchers and Centres of Excellence
Applied research, co-development and policy influence.

POWER STATEMENTS

“

The SIRAGA Forum is not a showcase. It is a platform of power.

“

We do not bring actors together to comment on the future. We bring them together to build it.

“

*Produce in Africa.
Finance in Africa.
Transform in Africa.
Protect in Africa.*

“

The time of promises is over. The time of industrial architectures has begun.

JOIN THE PROGRAMME

Be part of the continental industrial momentum. Join leaders, institutions and innovators committed to building Africa's economic sovereignty and global competitiveness. Register your interest and secure your place in the SIRAGA Forum 2026.
